LEAVE NO ONE BEHIND

WHO IS AFFECTED BY CURRENT AI DEVELOPMENT, GOVERNANCE, STANDARDIZATION AND REGULATION PROCESSES?

CENTER FOR SCIENCE AND THOUGHT

UNIVERSITÄT BONN & ZOOM

JULY 11 → KONRAD- ZUSE PLATZ 3, 53227 BONN

JULY 12 → POPPELSDORFER ALLEE 28, 53115 BONN

As part of the new legislative framework, the European AI Act will take care of technological innovations and details through the use of (harmonized) standards. However, as has been repeatedly observed, in standardization, there is a lack of participation of stakeholders from civil society. With this workshop, we intend to approach this issue from different disciplinary angles to discover how overlooked groups and groups that usually do not have a prominent voice in standardization can be included. We are broadening this inquiry to AI governance, regulation, and AI development in general. Our questions range from sustainability questions, environmental inequality, AI and education, AI and children's rights, and how fundamental rights impacts can be assessed to critical theory and fairness.
